HARDING TO HOLD SEAT IN SENATE

Will Serve Entire Term—Congratulations Are General.

Washington, June 15.—Warren G. Harding the Republican presidential nominee, does not intend to retire from the United States Senate until his term of office expires on March 4th.

"There is no possibility of that," Senator Harding declared today when asked whether he would resign from the Senate immediately. "I do not intend to resign, but intend to serve my time out. Why shouldn't I?"

"I do, however, intend to withdraw my petition filed last week in Columbus giving notice that I would be a candidate for re-election to the Senate. That will be done this week."

Senator Harding's friends explained that for him to retire from the Senate would endanger the narrow margin of control held by the Republicans there, as his retirement would enable Governor Cox of Ohio to appoint a Democrat in his place. They also said that should the Senator be elected president in November he could continue to serve in the Senate, as he would not be inaugurated until his term as Senator expired on March 4.

The Senator was at his office early today winding up some pending Senate business. His only fixed engagement was with Leslie M. Shaw, former Secretary of the Treasury, who called, it was understood, to discuss matters pertaining to publicity in connection with the coming campaign.

Senator Harding said he hoped to wind up matters pertaining to his senatorial duties by the end of the week and then take a brief vacation before returning to his home at Marion, Ohio, where he will be formally notified of his nomination.

"Only matters pertaining to the campaign were discussed with Senator Harding," said Mr. Shaw after an hour's conference with the nominee. "The election of the candidates is first business before us now. We did not discuss policies."

There was little abatement today in the stream of congratulatory messages reaching Senator Harding's office. The messages today included one from Henry Lane Wilson, former Ambassador to Mexico, assuring the Ohio Senator of his support.

To Be Notified Middle of July.

At his first conference with newspaper men today Senator Harding announced that his official notification probably would not take place before the middle of July. He added, however, that the opening of his campaign would wait upon this official notification, as it already was under way in various parts of the country.

Senator Harding said he had received telegrams of congratulation from all prominent Republicans except Senator La Follette of Wisconsin, who is in a hospital following an operation.

"I also had a very personal message from Colonel Bryan, who assured me that we had no common viewpoint politically," said Senator Harding.

The following cablegram was received from Elihu Root, who is now in Europe:

"Sincere congratulations and good wishes. The mantle of McKinley be upon you."

Hints that He Will "Stay At Home"

Senator Harding announced that he would not meet Chairman Hays of the Republican National Committee before next Monday and that there had been no decision as to the time and place for the conference at which plans for the campaign are to be discussed.

While the Senator was talking to the correspondents, Senator Thomas, Democrat, Colorado, arrived to congratulate him.

"If we have got to have a Republican for President you suit me," Senator Thomas said, adding that he had but one bit of advice to give: That the "man who stays at home will be elected."

"That fits in with my thought on that subject," said Senator Harding. During his talk with the newspaper men the nominee took occasion to de-

ny reports that he had been born in a log cabin.

Among the telegrams received was one from the publishers of Ohio daily newspapers who met recently at Columbus.

"Your fellow publishers are proud of the honor that has come to you," the telegram said.

Another telegram of congratulation came from Senator Underwood of Alabama, the Democratic leader in the Senate.

Callers at Senator Harding's office today included Senators Smoot of Utah and Chamberlain of Oregon, Representative Mondell, of Wyoming, the Republican leader in the House, and Gen. John Clem of Newark, Ohio.

MILES—BENTON.

Miss Beulah F. Miles and Mr. Leroy C. Benton, of Wysox, were united in marriage at the home of the bride's father, Squire John H. Miles, of near Paradise, Sunday, June the 13th. Rev. R. D. Bennett, of Hartford, performed the ceremony binding the holy bonds of wedlock.

The young couple are much respected and popular in their communities, and the writer joins the many friends of the newly married couple in wishing for them the best to be had in a long and contented life.

A FEW COMMENTS

ON G. O. P. TICKET

Secretary of War Baker, a fellow-Ohioan of the nominee, declined to comment on the nomination.

Senator Jones, Republican, Washington, said:

"The nomination of Mr. Harding was a brilliant stroke. I am more than delighted. Mr. Harding will be a strong candidate. Criticism is disarmed at the outset."

Colleague of Hitchcock.

Senator Hitchcock, Nebraska, said: "Senator Harding is a colleague of mine and a personal friend, and a man of the highest character. I think he fits the Republican platform very well. He is a very appropriate choice for that platform."

Senator Chamberlain, Oregon, Democrat said:

"I think they are excellent nominations. I don't see why they should get a strong Democratic vote, but they should get a strong party vote."

Representative Champ Clark, Democrat, Missouri, said:

"Harding and Coolidge will be just as easy to beat as any men they could put up."

Representative Flood, Virginia, Democrat, said:

"That is a pretty fair ticket. I think Mr. Palmer would be a good man for the Democrats to nominate, with Mr. Cox for Vice President."

OKLAHOMA VISITORS.

Mr. and Mrs. J. I. McCuen and daughter, Miss Eleanor, of Tulsa, Okla., are spending a few days here visiting Mrs. McCuen's sister, Mrs. J. R. Pirtle and Dr. Pirtle, and other relatives. Mrs. W. E. Newbolt and children, Richard and Clarence, also came in with the McCuens, but stopped off in Owensboro, to visit relatives there a few days before coming on to Hartford, where they will remain for some time.

SOCIAL CLUB MEETS WITH MRS. WILLIAMS

Mrs. Hooker Williams entertained the Ladies' Social Club at her home on the Sulphur Springs road, near town, Wednesday afternoon in a most enjoyable manner. Progressive rock being chief of the games indulged in, at the conclusion of which refreshments were served.

In addition to the club members the following guests were present: Mesdames James Lewis, Andrew Payne, Sam Taylor, Floyd Arbuckle, all of East Hartford and Clarence Overholtz, of Cedar Edge, Colo.

SUFFRAGE IS DEFEATED BY LOUISIANA ASSEMBLY

Baton Rouge, La., June 15.—All possibility of action by the Louisiana Legislature to enfranchise women of the Nation before the November elections was removed today.

The House voted down, 67 to 44, the Federal ratification resolution and then adopted in quick order, 60 to 39 a resolution flatly opposing Federal suffrage.

The Federal ratification resolution failed in the Senate last week.

WARREN G. HARDING

CALVIN COOLIDGE

Senator Warren G. Harding, of Marion, Ohio, received the nomination for President, on the Republican ticket at the conclusion of the tenth ballot, after a deadlock between Wood, Lowden and Johnson, which had lasted for a considerable length of time. The nomination came late Saturday afternoon and the break to Harding was headed by the Kentucky delegation. Harding went into the Convention with 64 votes and with strong sentiment for him among scores and scores of the delegates, yet the nomination went to him as a so-called Dark Horse.

The Head of the Republican ticket is a man of wide experience, and a most lovable character, being considered by all who know him as a strong prototype of the late William McKinley. As a youth, the first 14 years of his life was spent upon a farm, alternating between farm work and attending the public schools, later entering Ohio Central College, at Iberia, from which he was graduated.

At the age of 19 Mr. Harding engaged in newspaper work, having performed every service in that connection from "type sticking" up. In 1884 he acquired the Marion Star, since which time he has operated that paper with marked success, having never had a strike or any sort of difficulties with his force of employees.

Senator Harding will be 55 years old November 2nd., is a married man, trustee of Trinity Baptist Church, of Marion, of which he is a member. He has been active in politics since 1899, having served in the Ohio Senate, as Lieutenant Governor, and has been a member of the United States Senate since 1914.

CALVIN COOLIDGE, Governor of the State of Mass., who received the nomination at the hands of the Chicago Convention for Vice President on the ticket with Harding is perhaps the widest known Governor of any state within the Union, now serving in that capacity, due largely to his action in the Boston Police strike, which set the whole country talking of him, and in the minds of thousands he at once became their ideal candidate for President.

Governor Coolidge is a comparatively young man, having been born on a farm near the village of Plymouth, Vt., July 4, 1872, where his early life was spent in farm work attending the village school and working in a store. He is a graduate of Amherst College and his range of experience covers most everything from City Councilman and Mayor to Governor of the great state of Mass. He is noted for being a man of few words, in college he was dubbed "Silent Cal Coolidge," yet he is said to possess splendid powers of oratory, or rather of argument. He is a student, a deep thinker, strong on action and rather independent by nature. A man sufficiently proportioned to serve the Nation as its chief executive. In his first race for Governor his majority was only 17,000 and as a candidate for re-election it was 125,000 and the largest vote ever cast in Massachusetts.

W. P. HAYS ENTERS RACE FOR CONGRESS

Hon. W. P. Hays, of Bloomfield, Nelson County, was in Hartford Wednesday in the interest of his candidacy for the Republican nomination for congress from the Fourth District. Mr. Hays is an intelligent and prosperous farmer of Nelson County, and fully competent to serve the district should he reach the goal to which he aspires. In the event of his nomination Mr. Hays promises to make a thorough canvass of the district and to leave nothing undone, consistent with honorable methods in order to win this fall.

The announcement of Mr. Hays may be found in this issue.

FORMER OHIO COUNTY YOUTH EARNS HONORS

The name of Linden Thomas appeared in the Louisville Times Tuesday as the winner of the Best Effort prize offered by the Times for each of the Louisville schools. Linden is the son of Mr. and Mrs. J. H. Thomas and was a student at St. Mary Magdalene's parochial school. The prize carries a medal.

MRS. ROWAN TUCKER

Mrs. Rowan Tucker died at her home near Hefflin, early last Saturday morning, of tubercular trouble. She had been in poor health for quite a long time. Burial of the remains took place at New Bethel, Sunday at 11 o'clock. Mrs. Tucker is survived by her husband and five children.

OUR PILGRIMAGE TO THE MOUNTAINS

In company with Judge John B. Wilson the writer was so fortunate as to attend a convention of the Grand Lodge, Knights of Pythias of Kentucky, held in Pineville, during Tuesday and Wednesday of last week. Pineville is a thriving little city of some 3,500 as congenial and hospitable people as can be found this side of anywhere. The city nestles between three or four mountains of some 1,800 to 2,300 feet in height, with the only routes of egress or ingress following the gorges traversed by the Cumberland River, Straight Creek or perhaps a small and not much used outlet to the South-west. The L. & N. R. R. and the Boone Highway both enter through the gap made by the Cumberland River and by the two routes or methods, the only real way into and out of the little mountain town is afforded. But no one would care to go by any other route, for thereon lies the principle and chief works of nature, not in her largest, but most assuredly, in exceedingly attractive form.

The Pineville Knights chartered a train and took the delegates and visitors to Middlesborough, 13 miles distant, the whole of which is thru the most picturesque portion of the Cumberlands found within that section of the three states cornering at Cumberland Pass, thru which Daniel Boone entered the dark and bloody grounds through Virginia, from the Carolinas. Here, o'er shadowing the pass is the pinnacle, the highest point

in that section, the peak of which consists of a huge boulder, rising high toward the pure, blue sky, and as Judge Wilson said "It was a right smart rock, 'pearing to be about as big as forty little things like the Court House down home."

On the side, or rather in the side of Pinnacle Mountain is King Solomon's Cave, from which there flows a mammoth spring or volume of water from which Middlesborough, Cumberland Gap, a thriving little city at the foot of the pass in Virginia, and perhaps two or three other good-sized towns obtain their water supply, and still they use only a small portion of the flow, said to be of the purest and best to be found anywhere.

Judge Wilson and I, after a fruitless attempt to secure a guide, took it upon our selves to climb to the top of Pine Mountain, in the shadow of which our hotel was located. Arrising at 4 o'clock in the morning, we started our upward journey from the side nearest the river, we ended the climbing labor after going up 2,300 feet, but it seemed that we had done about five miles in the effort. We crawled out upon a huge rock or cliff from which we could look straight down several hundred feet, and the little city below us in the narrow valley appeared as a playhouse, a settlement in miniature. The view from the peak of this little mountain was the most beautiful it has ever been our fortune to behold, we could trace the swift moving Cumberland for some distance both below and above Pineville, and the narrow valleys and gulches, over which mountains lifted their peaks as silent watches, were, like the stars, almost too numerous to be counted. 15 miles away, the Pinnacle and other high points forming the crest of the Cumberlands could be seen through the hazy morning sun, which was not at all the best for rangy viewing, as our vision was thereby circumscribed.

Going down, Gee! How we wished for some sort of elevator going our way. That is where the hurtful part of mountain climbing comes in, it is in getting down again. At scores of points we were forced to feel our way, holding on to bushes and such things as we could get our hands on, but we made the trip O. K., coming off of the mountain from the side opposite that on which we made the ascent, but tired, hot, and hungry as a church mouse. And alas, the dining room at the hotel was closed for the morning. The hour was 9 and the lid to the eats had gone on at 8:30.

We went to our room, cleaned up, rested a few minutes and the only reason we failed to slide down the banister to get back to the lower floor, was the fact that there was none there. The Judge made the trip down side-wise and I crawled it, traveled down backward. Any way you did it, it pulled leaders clear out, and into pieces.

We grew up in a country of big hills, and the Cumberland Mountains are, as a matter of fact, only small replicas of the majestic Rockies and numerous other ranges, yet this, our first look at the Cumberlands, modest in magnitude, though mountains beautiful to behold and as we looked at them in silence the inspiration being of pleasurable awesomeness, we ask and trust that our readers will pardon this feeble attempt at portraying a few of our impressions on this our first visit to Kentucky's most interesting region of the Creator's handiwork.

THE LOT SALE.

The big lot sale put on here last Saturday by the Wakefield-Davis Realty Co., of Shelbyville, was not as largely attended as is common in sales of this character, due to farmers and others being so unusually backward with their work. The weather was ideal for farm work, and as a consequence comparatively few of that class were present, yet the concern disposed of the entire property, consisting of approximately 40 acres known as the McHenry property and formerly owned by Mr. John A. Duke.

Every individual having any sort of business transaction with the Realty Company gives those connected with it strong recommendations for straight and fair dealing. Those in attendance were entertained by music furnished by the Middlesborough Band, and a first class lunch was served on the grounds, by the Ladies of the M. E. Church, so the day was all that could be desired by those present.

HARDING TO CONSULT "BULL MOOSE" WING

Prominent Progressives To Be Called Into Conference.

Washington, June 16.—Plans for bringing Senator Harding, the Republican presidential nominee, into closer touch with party leaders, particularly those of the Progressive wing, were discussed today at a lengthy conference which the senator had with Walter F. Brown, of Toledo, his floor manager at the Chicago convention.

The conference is understood to have resulted in a decision to send invitations at once to a number of prominent Progressives asking them to meet with the Republican nominee to discuss the present situation and the coming campaign. The list of those to be invited will not be made public at present.

Hopes To Utilize Views.

Friends of Senator Harding said tonight that the proposed conferences would be held before the nominee's formal notification, which will be some time after July 15. The senator, it was said, hopes to utilize the views expressed by the party leaders in the preparation of his speech of acceptance.

While some of the meetings may be held before Mr. Harding leaves Washington Monday, the greater portion are expected to take place while he is on his planned vacation.

The visit of Mr. Brown today was regarded by political observers here as significant. In 1912 he was chairman of the Ohio State Progressive Committee and was active in the campaign for Theodore Roosevelt. He was a delegate to the recent Chicago convention and after the defeat in the state primary of Harry M. Daugherty, of Columbus, the senator's campaign manager as a delegate-at-large was selected as Mr. Harding's floor manager.

"I think you will find that the Progressives will be behind Senator Harding," Mr. Brown said as he left the senator's office.

Confers With Senators.

Indications that Mr. Harding, however, intends to ascertain the views of all leaders in the party was contained in his announcement today of a conference last night attended by Senators Lodge, Republican leader in the Senate; Brandegee, of Connecticut; Fall, of New Mexico, and Smoot, of Utah. This meeting, at which the platform adopted in Chicago was discussed, is expected to be the forerunner of many similar informal meetings.

Senator Harding also gave considerable attention today to Ohio political matters, conferring, in addition to Mr. Brown, with W. L. Parmenter, of Lima, O., former state chairman. The candidate made public a letter to Secretary of State Smith, of Ohio, withdrawing his petition for renomination as the Republican candidate for senator at the August primaries. The petition was filed on the eve of Mr. Harding's nomination for the presidency.

Shortly before the senator left his office for the day, General Pershing called and remained in conference with him for about fifteen minutes.

"It was merely a social call," said the general as he departed. "The senator is a very good friend of mine."

The deluge of congratulatory telegrams and letters which began coincident with the nomination, continued today. Altho the nominee arrived at his office early and remained late, additional help had to be obtained to clear away the great mass of correspondence.

Among the telegrams received during the day was one from Thomas Taggart, the Indiana Democratic leader and candidate for senator.

"I desire to take this opportunity to congratulate you upon your nomination," said Mr. Taggart. "It was certainly a great victory for you. I remember with much pleasure your many kindnesses while in the Senate and I have said repeatedly that if we had to have a Republican President, that you would be my first choice."

A letter of congratulation from Rear Admiral William S. Sims also was received.

HARDING IS DELUGED WITH FELICITATIONS

Friends And Neighbors Stay Up To Extend Welcome

Washington, June 14.—Senator Warren G. Harding, the Republican presidential nominee, who arrived here last night from Chicago, put in a busy day today, receiving the congratulations of friends and clearing up pending matters in connection with his senatorial duties. He found time, however, to play a round of golf at a neighboring country club.

The Republican nominee announced that for the present he would have no statement to make. He reached his office shortly before noon, after posing for the moving picture men, was given an informal reception by Senate employees. He seemed in the height of good humor and while posing for the moving picture men, kept up a running fire of humorous comment.

Hundreds of Telegrams.

At his office the Senator found several hundred telegrams of congratulation as well as a large batch of mail. Among the telegrams were messages from his father, Dr. George Harding, and sister, Abigail, sending congratulations and love, and from former President Taft, Charles E. Hughes, Senator Hiram Johnson and Governor Coolidge, the Senator's running mate; Senator Knox and a number of others.

Other messages received were from Senator Pomerene, Democrat, of Ohio and Representative and Mrs. Nicholas Longworth, of Ohio.

On arriving at the capital the Senator visited the Senate barber shop to see Elder Sims, one of the negro barbers.

"He's the barber who prays for me," Senator Harding said. "It did me good to see him."

Senator Harding declared that being the presidential candidate was "more strenuous than anything I have ever known."

Message to Coolidge.

Senator Harding sent replies today to a number of the telegrams of congratulation. This message went to Governor Coolidge:

"Thank you for your message. Your selection for the vice presidency has strengthened our ticket by adding a truly great and trusted American. I am honored by the association."

Another telegram congratulating Senator Harding upon his success was signed Warren G. Harding, 1990 Arthur Avenue, New York. It was said that the signer was not related to the nominee.

It is understood that the Ohio Senator will make no definite plans for his campaign until after his official notification of his nomination, which will be made at his home in Marion. While resting before going to his home the Senator expects to devote considerable time to the preparation of his speech accepting the nomination. He has not yet determined where he will go for his rest.

Accompanied by Mrs. Harding, his secretary, George C. Schustian, and a small group of Senators, Senator Harding arrived here a few minutes after midnight and went directly to his home on Wyoming Avenue.

While the Boy Scout band of Oil City, Penn., sounded a noisy welcome, the Senator and his party made their way through the cheering group at the station, pausing just long enough for two flashlight pictures to be taken. An incident that was repeated upon his arrival at his home.

Neighbors Stay Up To See Him

Congratulations upon his nomination continued to reach Senator Harding at his office, while at his home Mrs. Harding was the recipient of numerous enthusiastic messages from their personal friends. Pictures taken when the nominee reached his home include Mrs. Harding. Many of the neighbors had remained up to witness the homecoming and their greeting was like that given by the crowd at the station. Inez McWhorter, the Harding's negro cook, was in the van of those who rushed forward to welcome them. Her extended hand was grasped by both Senator and Mrs. Harding, while an open smile illuminated her face.

The Senator thanked those who had gathered to welcome them, but nothing in the nature of a statement was made by him either there or at the station. Among those who accompanied the Senator from Chicago were Senators Lodge of Massachusetts, Republican leader; Smoot of Utah, Poindexter of Washington, Southerland of West Virginia, Ball of Delaware and Fernald of Maine.

Crowd Waits Two Hours.

The Boy Scout band which was chosen to welcome Senator Harding was in Washington on a sightseeing trip and when its presence was called to the attention of those arranging for the reception it was selected for

the honor because of the part played by the Pennsylvania delegation in bringing about the nomination. The train was two hours late, but the crowd which had gathered at the station listened to the boys practice the airs they later played when the train arrived, and waited patiently until the party came through the gates.

Going to his home, Senator Harding drove by the White House. On either side of his automobile rode two motorcycle policemen and close behind came another automobile filled with secret service men.

Senator Harding received the following telegram from Col. William Cooper Procter, of Cincinnati, one of the managers of the Wood campaign.

"Sorry I missed seeing you here that I might congratulate you in person on victory that crowned your plucky fight."

A correspondent of a French newspaper sought to present to Senator Harding a series of questions, but the Senator declined to consider them. However, he did say to the correspondent:

"If I become the Chief Executive of this nation I can assure you that I will foster the spirit of friendship with France."

Best Remedy for Stomach Trouble.

"I am pleased to have the opportunity to say a good word for Chamberlain's Tablets," writes Mrs. Mamie Bertel, of Moberly, Mo. "I think they are the best remedy for stomach troubles, biliousness and constipation I have ever used. I have taken them off and on for two or three years and they always relieve indigestion, tone up the liver and make me feel fine."

WHITESBURG JAILER

IS REFUSED PARDON

Whitesburg, Ky., June 10.—Jailer Fess Whitaker will serve his six-month jail sentence, since Governor Morrow has refused to pardon him, and he will at once become an "inmate" in his own jail—the bastille of which he is the legally-elected and qualified keeper. Eighteen months ago Whitaker went on a rampage, attacking former Judge Sam Collins, Sheriff James Tolliver, Wiley Jenkins and others on the streets. He was arrested, fined and given a six-month jail sentence. In jail he carried his own key and unlocked the door, walking to liberty. According to Governor Morrow, Whitaker must abide by the dictates of the court and serve his sentence.

Whitaker two years ago became an author, writing a book, "Life in the Kentucky Mountains," which met a large sale. In the Spanish-American War he became intimately acquainted with Colonel Roosevelt. Whitaker marched alongside of Colonel Roosevelt up San Juan Hill and won fame as a Rough Rider.

Whitaker is a candidate for county judge next year, and it is believed will win. He is unusually popular in the mountains.

CIVILIANS MAY FLY.

Aviation in England is no longer limited to the army and navy. An act has been passed "freeing the air to civilians" and \$15,000,000 has been appropriated to encourage civil aviation. Regulations covering civil aviation have been issued which people must be thoroughly familiar with before they are permitted to fly.

The British are doing their best to capture the air supremacy. A worldwide network of air-ports and air-lanes is being laid out which is intended to duplicate the present world system of British sea traffic. It is planned to have the system so organized that it may be easily converted from civil to military uses in case of war.

Cut This Out And Take It With You

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.

ZIONIST GATHERING

Justice Brandeis And Party Off For London Conference.

New York, June 12.—The first group of American delegates to the International Zionist Conference which convenes in London, July 4, leaves here today for England on the steamer Papland. In all there will be thirty-nine American delegates to this conference, considered a momentous gathering. The others will leave for England next Saturday.

In the party going today are Justice Louis D. Brandeis of the United States Supreme Court, honorary president of the Zionist Organization of America; Judge Julian W. Mack of the United States District Court, president of the organization; Nathan Straus, Mrs. Mary Fels, Jacob de Haas, Zionist executive secretary; Louis Lipsky, organization secretary; Prof. Felix Fraunkfurter of Harvard; Capt. Abraham Tulin and David Rosenbloom.

The first world Zionist conference held in six years since the outbreak of the war, the forthcoming convention is considered of importance because it will deal with the practical problem of the establishment of the Jewish National Homeland. Delegates will attend from every country in Europe, Palestine, Argentina, Australia, Canada and New Zealand. Mrs. Brandeis, Mrs. Mack and Mrs. Straus are accompanying their husbands. Mr. and Mrs. Straus will continue on to Palestine to inspect the many philanthropies they have started there and to investigate the establishment of such others as they deem necessary to help carry out Zionist reconstruction plans.

Booze Is Not a Good Cure.

(From the Ames Iowa Intelligencer)

When a man comes to you all doubled up with pain and declares he will die in your presence unless you procure him a drink of whiskey, send him to a doctor or else give him a dose of Chamberlain's Colic and Diarrhoea Remedy. There is a mistaken notion among a whole lot of people that booze is the best remedy for colic and stomach ache.

LEAGUE IS MAIN PLANK FOR THE DEMOCRATS

San Francisco, June 9.—A declaration in favor of ratification of the treaty of Versailles will be the main plank in the Democratic platform, according to Homer S. Cummings, chairman of the Democratic national committee, who arrived here late last night to prepare for the national convention.

"What other big, constructive planks will be built into the platform is not for me to say at this time," he said.

THE GIFT OF SEEING BOTH WAYS AT ONCE

Nature has endowed some animals with the power of seeing objects behind as well as in front of them, without turning their heads. It is a gift of course intended for their protection, and why a similar means of avoiding perils from behind was not accorded to man can, perhaps, only be explained on the theory that it would have marred his beauty.

The hare possesses this power of seeing both ways, to a marked degree. Its eyes are prominent and placed laterally. Its visual accomplishment is very noticeable in coursing, for altho the greyhound is mute while running, the hare is able to judge to a nicety the exact moment which will be best for it to exercise itself to the utmost to avoid capture.

Horses furnish another example of hindsight. It is only necessary to watch a horse driven without "blinders" to observe this. Let the driver even attempt to take the whip from the socket, and if the horse is used to the work, he will hit pace at once.

The giraffe, which is a very timid creature, is approached with the utmost difficulty, because of its power through the way its eyes are placed of seeing as well behind as in front. And many other examples might be cited to prove this particular advantage of dumb animals over man.

PARISIANS EAT ZOO ANIMALS.

Meat dealers in Paris are selling to the public the flesh of animals that are not usually used as food.

A huge lioness was killed a few days ago and choice cuts of it were sold on the market. Camels' meat also has been eaten. The animals belonged to a circus which bought them from a zoo but was unable to stand the expense of feeding them.

ARMOUR COMPANY FILED

The Armour Grain Co., of Chicago recently paid a fine of \$1,000 for adulterating a shipment of oats. When 35 cars of oats from the company reached Baltimore in 1914 for loading on a vessel it was found that barley had been mixed with the oats to increase the weight.

NEW TREATMENT FOR LEPROSY SUCCESSFUL

The United States Public Health Service has reports of what appears to be a cure for leprosy, it was announced by Surgeon General Hugh S. Cumming yesterday.

Thus one of the world's most dreaded maladies, regarded as a hopeless and incurable scourge of humanity since early history, would seem to have been conquered by officers of the Public Health Service in the leper colony in the Hawaiian Islands.

For some years the belief has been gaining ground that leprosy could be cured, and encouraging progress was made by several investigators. The starting point for this study was the observation that now and then the course of the disease appeared to be favorable influenced by treatment with chaulmoogra oil.

The treatment, however, was attended with many difficulties and could not be carried out in all cases. At this point the Public Health Service enlisted the co-operation of Prof. L. E. Dean, head of the chemical department of the College of Hawaii, and president of that institution, suggesting that attempts be made either to isolate the active constituent of this drug, or devise means for making its continued administration feasible. The latter has been accomplished by preparing what is known as an "ethyl ester"

from the Chaulmoogra oil. The treatment has been carried on at the Leprosy Investigation Station at Kalahehi, Hawaii, the work being directed by Dr. J. T. McDonald, director of the station. The results of the treatment thus far have been so satisfactory that lepers come willingly for treatment, a recent inspection by Hawaiian health authorities failed to disclose a single secreted case of leprosy. Following a course of treatment, extending over about a year, 48 lepers, treated according to the new methods, were paroled in October, 1919. Up to now they have remained free from disease. At the present time the treatment has been administered only at the receiving station, but it is hoped to provide facilities for the treating also of lepers in the leper colony at Molokai.

Surgeon General Cumming's announcement relates to lepers who have been treated by the new method and have been under observation for a considerable period. Moreover, the decision as to apparent cure has, in the case of each patient, been officially determined, not by officers of the Public Health Service but by a special parole board, which alone has authority to discharge a patient from custody.

The Public Health Service is now conducting a very careful study of the treatment, making detailed records of all the cases and taking photographs of the lesions once a

month. Details concerning the treatment will be published in the near future.

WAS HIS LUCKY DAY, HE STATES

"Tanlac Soon Had Me Feeling just Like a Different Man," Says Phillip Deppe.

"It was a lucky day for me when I started taking Tanlac," said Phillip Deppe, 807 East Market street, Louisville, Ky., a well known plumber, who has been in the employ of P. A. Vogle & Son, for many years.

"Why, I actually gained eight pounds in weight in two weeks time when I began taking it and the benefits I have received from it are little short of marvelous. For the past two years I had suffered severely from stomach trouble. After every meal what I ate began to sour and I would taste it for hours, and there was a heavy, indigestible feeling in my stomach, I often had terrible dizzy spells when I would become very weak, and at times I had to grab hold of something to keep from falling. Also about a year ago I began to suffer with rheumatism in my arms and legs, which pained me all the time, and often my muscles seemed to just draw into knots and it was an effort for me to get around. Then, too, I was bothered a great deal from constipation, for which I had to always be taking some sort of laxative.

"I tried many different treatments and medicines without getting any relief, and had become very much discouraged, but when I saw where Tanlac had benefited so many others who described their condition as being similar to mine I decided to give it a trial. Well sir, it just seemed to fit my case exactly, and went right after my troubles at once, and soon I was feeling a different man. I now haven't a trace of stomach trouble, can eat anything I want and everything agrees with me perfectly. My appetite is great and I enjoy what I eat more than I have in years. The rheumatism left me almost as soon as I began taking Tanlac, I never have a pain of any kind and can get about as good as I ever could. In fact, I feel better in every respect than I have in years, and as I owe it all to Tanlac I am only too glad to recommend it to everybody."

Tanlac is sold in Hartford by Dr. L. B. Bean, in Horse Branch by Olaton Drug Co., in Rockport by James Browning, in Cromwell by Wallace & Porter, in Beaver Dam by R. T. Taylor, Jr., and in McHenry, by S. J. Tichenor.—Advertisement.

CLOCK KEEPS BOTH TIMES.

New London, Conn.—To do away with having to answer an avalanche of questions daily as to whether his clock was set on standard or daylight saving time, L. W. Thompson, in charge of the Main Street trolley waiting room at Noank, has devised a scheme whereby a glance at the clock will give the correct time regardless of which time the person may be using.

By adding an extra hour hand to the face of the timepiece and setting it one hour ahead of standard time both varieties of time are shown by the one clock, no adding or subtracting an hour being required.—Boston Globe.

START DARK HORSE BOOM FOR PERSHING

New York, June 10.—A dark horse boom for Gen. Pershing for the Democratic presidential nomination was set in motion here today. It was announced that Edward E. Goltra, national Democratic committeeman from Missouri was in Washington today to invite Gen. Pershing to attend the San Francisco convention as a guest of a big Missouri delegation on a special train.

Gen. Pershing is a native of Missouri, and the men behind this movement say he is eligible for nomination as a Democrat although he has no definite party alignment.

The Goltra party has arranged to invite prominent native sons of Missouri, and it is said that among these Secretary of State Colby has already accepted. Augustus Thomas, playwright and orator, also a Missourian is booked, it is said, to present Gen. Pershing's name to the convention.

There appeared little doubt that the announcement here today was timed deliberately with reference to the situation in the Republican convention at Chicago.

It is known that Gen. Pershing during the last week has been in conference with some of the leading factors

in the Democratic party, although there is no suggestion that he is actively approving or supporting the movement launched in his behalf.

Democrats point out that the fact that Senator Warren, of Wyoming is Gen. Pershing's father-in-law has led to the impression that Gen. Pershing is a Republican, but that this impression is without foundation in fact.

Announcement of the movement to make Gen. Pershing the Democratic presidential nominee follows closely upon the news that the general will shortly retire from the active list of the army.

CUTS NEW TEETH WHEN HE IS 84 YEARS OLD

The adage that there is nothing new under the sun has been disproved by N. D. Starr, 88 North Third Street, who has cut a third set of teeth at the age of 84, when, usually, the only new molars, bicuspids, etc., that can be achieved are those purchased from a dentist, says the Memphis Commercial Appeal.

Mr. Starr, who is in the employ of the Memphis Artesian Water Company, recently found himself in need of a set of these artificial substitutes for the teeth provided by nature. But when he visited his dentist the price was too high, and he decided to go toothless. However, through one of the unaccountable happenings which sometimes upset all rules, Mr. Starr discovered that he was cutting 12 new teeth. They are almost through now, although they are not very useful yet, owing to the fact that his gums are sore, in a fashion familiar to all mothers of teething infants, or to boys and girls whose second teeth are replacing their baby teeth, and even to the older boys and girls who proudly announce "I'm cutting a wisdom tooth."

Dentists doubtless will contend that such things cannot happen. But Mr. Starr knows that he now has teeth where no teeth were before. Moreover, he says his eyesight is better than it was several years ago, and that so far from his vigor being impaired by advancing years, he feels stronger and more youthful than he did when he was 70.

ILLITERACY AND RADICALISM.

Another confirmation of the fact that radicalism and illiteracy march together hand in hand comes from Italy, where the conservative and educated citizens have formed an organization of vigilantes to combat the spread of Bolshevism and soviet ideas. We are told that the problem of radical repudiation of government institutions and property rights is most acute in Southern Italy, where the percentage of illiteracy runs as high as 76. Russia, of course, presents the most distressing example of the spread of radical thought, and there the illiterates number 75 per cent or more of the people.

It ought to be obvious that no one whose mind has been broadened and disciplined in the acquirement of knowledge could be deluded into the belief that a dead level of equality in material possessions might be maintained by law. This being so, it ought also to be evident that more and better schools rather than armies or other forces of repression will be the best solution of this urgent and menacing problem.—Commercial Appeal.

SPADE BRIGADE WILL HUNT CARUSO GEMS

East Hampton, N. Y., June 13.—A pick and shovel brigade of private detectives tomorrow will begin a systematic search of the 100-acre estate of Enrico Caruso here in a final effort to discover the hiding place of \$500,000 worth of jewels that were stolen from the tenor's home several days ago.

The detectives plan to dig up every square yard of earth on the grounds, they announced, being confident that the missing jewels are secreted within the estate.

Guards were doubled tonight as a result of threats made against members of the family, and also to frustrate, it was said, any attempt that might be made to remove the jewels from their hiding place and carry them off.

None of the employees is being permitted to leave the grounds.

"Oh, Mrs. Teks, I'm so upset! Our little Johnny's lost!"

"Well, e'll be found all right. Everybody about 'ere knows 'im."

"Nobody'll know 'im today—'cos I've just washed 'im."—London Passing Show.

Get Goodyear Tire Economy for That Smaller Car

Just as owners of the highest-priced automobiles get greater mileage and economy out of Goodyear Tires, so can the owners of smaller cars similarly enjoy Goodyear advantages.

The 30x3-, 30x3½, and 31x4-inch sizes of Goodyear Tires are built to afford a money's worth in performance and satisfaction which only the utmost in experience, resources and care can produce.

This extraordinary money's worth begins not only with the merit of these tires, but also with the first cost, which in most cases is no greater, and sometimes actually is less, than that of other makes of the same types of tires.

Go to the nearest Goodyear Service Station Dealer for Goodyear Tires for your Ford, Chevrolet, Dort, Maxwell, or other cars taking these sizes. He is ready to supply you Goodyear Heavy Tourist Tubes at the same time.

EDITORIAL COMMENT

This state department of ours at Washington seems to belong more to a faction in Russia than to America. Every few days, out of the tomb in which it lives with Kornilov and Kalendines and Kerensky and Kolchak, it issues another conversation in which it tells us once more that the soviets of Russia are on their last legs. Is our state department working for us Americans? Or is it working for its Russian friends?

The state department has put people into its Russian division who by marriage or by executive ties of social acquaintance in Russia antisoviet aristocratic circles were just about as likely as Kolchak himself to be able to take a cool and candid American view of the contending factions in the Russian civil war. With the help of such people, and with the help of its own prehistoric preserved Russian Ambassador Bakhmetev, out of the stone-dead age of Kerensky, our state department has spent two and a half years putting last legs on the Russian soviets—that is, on Mr. Bakhmetev's Russian enemies.

But Mr. Bakhmetev's Russian enemies seem to be able to make wonderful use of all the last legs that he and our state department can send them. On last legs, the Russian soviets are now receiving delegates from the British labor movement at Moscow and are about to receive official political delegates from Czechoslovakia. On last legs they are in receipt of the equivalent of governmental recognition from Italy. On last legs they have run several hundred miles to a conquest of the oil wells of Baku and several thousand miles to a conquest of most of Siberia and then back, westward again, across Asia, and across a third of Europe, to a new war with Poland in the course of which the Polish government is already obliged to adopt a budget calling for expenditures which are at least six times as large as its revenues.

Above all, however, the Russian soviets have taken their latest consignment of last legs from Washington and have jumped on them all the way to London; and there, through their representative Gregory Krasin, their minister of trade and com-

merce, they are conducting negotiations face to face with the diplomats of the world's most expanded world empire. Now it is announced that as a result of these negotiations the soviet government has been authorized to open immediately a central trading office in London, there to exchange Russian goods for the wares of British traders.

Mr. Bakhmetev is still—by our act—by our state department's act—the custodian of the supplies bought in America for Russia in 1917 with American public money loaned to the Kerensky Russian government out of the American public treasury. Mr. Bakhmetev—Kerensky's ambassador—is still the custodian of the cash secured by the selling of those supplies. He lives on his continued diplomatic recognition by our state department.

For two and a half years our state department has maintained a Russian embassy which is nothing but its own Russian annex of favorite Russian factionsists, and for two and a half years our state department has been continuously wrong on the facts and on the developments of the facts in Russia.

The question here is not, Should we recognize the soviets? The question here is, Should we get the facts?

We are kept from the facts by a Russian embassy representing a Russia which exists only at the bottoms of glasses on tables of luxurious exiles in Washington. We are kept from the facts by a Russian division of the American state department which tells us that the soviets are falling until they fall securely into the hands of British traders!

We Americans need a state department which is not so good for Mr. Bakhmetev and not so good for the British, but is better for America and for the truth. Chicago Daily News

SHOE PRICES CUT.

General reductions in the wholesale price of shoes were announced yesterday afternoon by the Carruthers Shoe Company. While the reductions are small in proportion to the high price of shoes, they cover all grades and styles. The prices have been cut from 25 cents to \$1.50 per pair, and according to Ewing Carruthers, president of the concern, the higher grades registered the greatest decline.

"The people have quit buying high-priced goods," said Mr. Carruthers yesterday, "and their determination to economize will gradually force the prices of shoes and other things down to a reasonable basis. The public now wants middle-class shoes and they refuse to buy the higher priced grades. This fact, together with the tight money market, has forced shoe merchants throughout the United States to cut their prices. St. Louis dealers this week announced substantial reductions and the tendency towards lower shoe prices seems general throughout the country. We are making a general reduction in prices at present, and even greater declines may come within the next few weeks."

H. C. Yeakers, sales manager and purchasing agent for Goodbar & Company, said last night that his firm is also contemplating a slight reduction in shoe prices. He said the new price schedule, which is now under preparation, will provide for an average decrease of 8 or 9 per cent from the present prices.

Mr. Yeakers agreed with Mr. Carruthers that the reduction is caused by refusal of the people to buy the higher priced articles. He said there will be little cutting of prices of the lower grade shoes, but that the greatest reduction will be made in the higher and fancy grades. Mr. Yeakers said that his new price schedule will show a reduction of from 15 cents to \$2.50 per pair.

Both dealers declared the new prices will have no immediate effect upon the retail price, because the retailer bought his stock before the reductions were made. They said that most retailers are overstocked with shoes and that in many instances they are cutting prices in order to get the surplus stock off their hands

and for the purpose of obtaining cash, thus combatting the serious situation presented by the money market.—Commercial Appeals.

PSYCHOLOGY DOESN'T WORK

Experience of business houses in classifying their employees according to intelligence and alertness tests has not proved satisfactory. This was brought out at the annual meeting of the National Association of Corporation Schools, where a committee reported that the results from the psychological tests had not justified the expense incurred by the commercial concerns using them.

The Chicago Convention spoiled a
lot of nice investigations and talk
of investigations as to the H. C. of
being a candidate, when it nominated
Harding and Coolidge.

Quite a number of the country's
best critics give Woman a most prom-
inent place in the doings of the Chi-
cago Convention on the day nomina-
tions were made. Mrs. Robinson, a
sister of the late Col. Roosevelt ap-
peared to carry off the honors in a
splendid display of thought and oratory.

A man in Kingston, N. Y., who is
possessor of considerable means, says
he has fallen in love with a woman
because she is strong and a splendid
cook. For that confession he has
been charged with being crazy by his
relatives, who seek to have a com-
mittee appointed to manage his busi-
ness. The alleged lunatic ought to
receive a chromo and his example be
followed by men everywhere. Why
shouldn't a man love a strong woman
who is a good cook? The other class
of cooks has turned out more dys-
peptic, sour stomached, scatter-brained
asylum inmates than the average
layman imagines. If a man must
love a woman, by the graces of the
very best of good fortune may she be
a good cook, and strong.

The Standard Bearers put forth by
the Republican Convention do not, as
a matter of course meet with unani-
mous approval of Democrats, and the
press representing that party are talk-
ing a third party ticket. They are
sorely disappointed because of the
failure of the Republicans to break
up in some sort of a split at Chi-
cago. Perhaps the coming Democratic
Convention may be able to drag to-
gether some sort of catch-all that
will satisfy the nonpartisan league
and the others who are afflicted with
a chronic case of disgruntleditis, as
many of whom came from the Demo-
cratic party as any other in the coun-
try. The Republicans did not ap-
pear to try to cast a net for that
element and we are most assuredly
proud of that fact. With all breeches
in the ranks healed and no cry that
HE kept us out of war and a great
majority of the whole country against
the Wilson League to keep us out of
future wars, coupled with the fraudu-
lent and deceitful cry that he would
keep us out of war, fresh in the mem-
ory of every thinking man and woman
in the Nation, there is no wonder
that Democratic politicians and press
are dissatisfied with prospects, and
are bitterly howling about what they
are pleased to style as the result of
the Senate oligarchy.

Governor Lowden was our choice
for the nomination for President, but
his chances, like Wood's were ruined
by his friends in the injudicious
spending of money for what they
thought to be to his best interests. It

is said that money talks, but in this
instance it made entirely too much
noise. Mr. Lowden may have been and
we believe that he was free and
blameless of wrong doing, yet so
much talk made his nomination not
only dangerous but impossible. With-
out a lot of publicity of the right
character no man stands much chance
of being the nominee for any great
office, except he may secure it thru
the dark-horse method, as did Sena-
tor Harding. The Harding forces
spent nothing, comparatively speak-
ing, and he did not get very far in
the pre-convention instructed vote.
Had it not been for the organization
in behalf of and the immense amount
of publicity matter put out, by means
of what appeared to be an almost un-
limited supply of money back of
Wood and Lowden, Johnson would
have undoubtedly gone into the Con-
vention with by far, the largest in-
structed vote, due to his aggressive-
ness and Nation-wide acquaintance.
It is our prediction that the dollar
will be far more quiet in the next
pre-convention Presidential cam-
paign, and it is well that it should be,
yet enormous sums may, and will be
legitimately spent in behalf of those
who may enter the contest. The
nomination went to Senator Harding
on an absolutely clean platter, no con-
tamination whatever is attached.
Some for political purposes and some
for other reasons charge his nomi-
nation to the combination of United
States Senators, which is the silliest
sort of talk. Maybe a majority of
the Senate did favor him, who with
good sense care if it did? So long
as disreputable methods were not
resorted to. Had Lowden been nomi-
nated it would have in all probability
been charged that an oligarchy of
Governors and the financial inter-
est put it over, that too with as many
sensible reasons as the other charge
is made. No flaw may be found in
the character of either Harding or
Coolidge, each received his nomina-
tion by as clean methods as were ever
practiced in any convention, nation-
al or otherwise. Both are spot-
less before the world, their ability
is unquestionable, the Republican
party is united as it has not been
since the days of 1904 and 1908. In
view of these facts there is little
wonder that some of the Democrats
try to stir up steam-roller and sen-
ate oligarchy sentiment. It won't
work this time, there's nothing doing,
absolutely nothing. We have
had to let our belts out to the very
last hole on account of having an over-
dose of Wilson and Wilsonian ways,
all due to our split in 1912 and HIS
keeping us out of war in 1916. We
are waxed together now gentlemen,
and no silly sallies twaddle of the
Wilson followers can part us asunder.
We are going to vote solidly for keep-
ing the seat of government of the
dear old Republic at Washington,
and let Mr. Wilson out March the 4th
next, so that he may, if he still wishes
to go to Europe and devote all of his
time in helping to govern over there.

And our hearts are sad and sore,
But we hope some day to meet you,
Where parting is no more.

We miss thee Dearest Father,
There is thy vacant chair,
We miss thee, Oh, we miss thee,
We miss thee every where.

A dear Father from us is gone,
A voice we loved is still.
A place is vacant in our home,
Which never can be filled.

From the ranks our Father is missing
Yet to memory he is dear,
Still in spirit we behold him
And in dreams he hovers near.

We shall meet him in the morning,
When our work on earth is done,
At the river, blessed river,
We shall greet him one by one.

CONVENTION COMMENTS

By J. H. Thomas.

It cost Gov. Lowden \$400,000 to
lose the Republican nomination for
president.

The convention just held illustra-
ted the absurdity of the presidential
primary. It forced candidates to in-
cur the odium of spending large sums
of money in getting their names be-
fore the people, and then because of
such large expenditures the conven-
tion was afraid to nominate either of
them.

But for the primary system which
resulted in candidates spending mil-
lions of dollars in advertising Hard-
ing would have been nominated on
the first ballot at the Chicago Con-

vention. He is undoubtedly the
strongest candidate that could have
been nominated, his strength was all
the time known to the party leaders,
but their final action was delayed by
the primary favorites.

Gov. Coolidge is big enough for
president, a quality that should al-
ways attach to a candidate for vice
president so long as human life is
mortal.

Publicity will bring Senator Hard-
ing before the country as a big and
capable man. His one weakness as
a popular leader is an excess of mod-
esty. I noted this fact and comment-
ed upon it after spending two days
with him on a special campaign train
in Kentucky in 1915. Harding has
been my choice for president since the
termination of that trip.

Senator Johnson behaved with be-
coming modesty at Chicago, and
agreeably surprised his enemies.

It is a safe assumption that we are
done with million dollar presidential
candidates.

The platform may not appear to a
Democrat very clear about the posi-
tion of the Republican party on the
League of Nations question, but it
leaves no doubt about the party's po-
sition of the Wilson made league.

The Republican party is the tradi-
tional friend of labor, and is still
such, but the platform winks a cau-
tion to the radical labor agitator.

Many prominent Democratic news-
papers frankly admit the strength of
the ticket nominated at Chicago, and
the more partisan of them are put
hard to for a criticism.

When the Republican national con-
vention met in 1916 and old liners
and Progressives were making every
possible concession to heal the breach
of 1912, Senator Harding was agreed
upon as the man most acceptable to
each faction for chairman of the con-
vention.

Kentucky played a prominent part

CAMPAIGN LAUNCHED AT CHICAGO HEADQUARTERS

Chicago, June 14—The Republican
campaign for the election of Senator
Warren G. Harding to the presidency
was launched today at National Com-
mittee headquarters here.

While Chairman Will H. Hays con-
ferred with Capt. Victor Heintz, re-
gional director, and other leaders, the
committee moved from the Coliseum
back to its campaign headquarters in
a hotel and cleared desks of conven-
tion matters in preparation for the
coming drive.

The first lot of 5,000,000 litho-
graphs of the candidate will be ready
for distribution this week, Chairman
Hays announced. The paper was
purchased and cut several months
ago, and pictures and autographs of
all the candidates obtained. By a
strange coincidence the printer who
won the contract chose Senator Har-
ding's picture to demonstrate his
work.

GETS FREE LOT.

Miss Carrie McKinney, daughter of Mr. J. E. McKinney, of this place, drew the lucky ticket entitling her to the lot given away by the Wakefield-Davis Realty Co., at their lot sale here last Saturday. The lot drawn is a nice one and conveniently located, being upon Union Street opposite the residence of Mr. Thomas Bean.

Miss McKinney being considerably under 21 years of age, we know of only two ways for any young man who may desire a building lot to secure this property. One is by a decree of sale through Court proceedings, and the other is—well, it is through court proceedings also.

The remarks were made, according to the witness, at the Great Lakes Naval Training Station, where Dempsey was boxing as a civilian Kennedy testified. Dempsey in September, 1918, asked him to have his exemption released and later Dempsey telephoned twice from New Jersey to see if the release had been obtained. The release, Kennedy testified, "came through," and Dempsey had started for Philadelphia to enlist, but the enlistment was stopped by the order of the Secretary of the Navy. Before further action could be taken the armistice came.

DEMPSEY TRIED TO JOIN NAVY WITNESS STATES

San Francisco, June 14—William Harrison (Jack) Dempsey, world's heavyweight champion, made strong efforts to enlist in the navy, according to the testimony today at Dempsey's trial in the United States District Court on a charge of draft evasion. Lieut. John F. Kennedy, battleship Mississippi, testified Dempsey had asked him to obtain his release from his exemption so he might enlist.

Dempsey, according to Kennedy, often remarked he "did not feel right to see the men in uniform about him, and as long as his family was well taken care of, he did not care

DEMPSEY TRIAL ON.

San Francisco, June 10.—Testimony tended to show that Jack Dempsey in answering his draft questionnaires, declared that his wife, parents, a widowed sister and her two children were dependent upon his earnings and thus obtained deferred classification, was offered today by the government at the opening of the trial of the champion heavy-weight pugilist on a charge of evading the military service act. Testimony of Mrs. Maxine Dempsey, former wife of Jack Dempsey, in regard to confidential communications between them while they were married was ruled out at his trial.

LEGION TO ADOPT ORPHANS

While in France the A. E. F. cared for about 3700 French orphans, French orphans, and it has been learned by the American Legion that these children have not been able to live without outside assistance since they were deprived of the soldiers aid. The Legion has started a movement for the readoption of about 3,000 of the tots.

EXTRAVAGANCE OF THE POOR.

"Perhaps the most unthrifty habit of all is that of not keeping enough money on hand to be able to purchase necessities to advantage, to take up bargains when offered, to buy clothing out of season, etc.," says Nellie Kelso in the Thrift Magazine. "A thrifty person will buy heavy winter underwear late in the winter to be worn the following winter; will buy summer underwear early in the fall, winter overcoats or cloaks in January or February, and will make many other purchases not just at the time they are needed, but when there may be a special sale on them, and keep them for future use. In the course of a year, this way of buying will save a remarkable amount of money."

We know many people who have lived year after year, as renters, because of the lack of a few hundred dollars as a first payment on a home. This is rank extravagance on the part of a poor man. He had better be very stingy for a while until he has made a start toward paying for a home.

"Again, many of the necessities of the home can be purchased very much cheaper, if ordered in large quantities. Buying little bits of this and that is decidedly unthrifty, and many people do this under the impression they do not have enough money to buy in larger quantities."

A schoolgirl who walked three miles per day wore shoes which her mother bought for \$2.25 per pair, feeling that this was enough to pay for school shoes. She wore out four pairs per year, a cost of \$9. Her shoeman finally succeeded in convincing her that a certain brand of \$3 shoes, which looked and felt much better would be more economical. Tried out, it was found that she wore out but two pairs of these shoes, at a cost of \$6 per year, which made a saving of \$3 per year.—Thrift Magazine.

YANKS BACK TO FRANCE.

It is generally understood that the American Army is going back to France; that is, some of it. It is not disembarking in long, gray files of olive drab from gigantic transports, but quietly, unostentatiously civilian garbed men who fought as doughboys on the Somme and who pushed the Stars and Stripes ahead of all the Allied banners in the Argonne; the "aces of air" and engineers whose first glimpse of the economic needs of France were gathered in the construction of the American Expeditionary Forces' railways, artillerymen and quartermaster officials—thousands of them—are returning to the

land they fought in and for as the standard bearers of American business in Europe.

Everywhere France is waking up. Oil is being substituted for coal on the French railroads, the ports of Havre, Bordeaux and St. Nazaire are being modernized with machinery from the United States. For years Paris has been menaced annually by floods and the French policy of laissez-faire has reigned until now, when it is said the French Government has discovered that America met and conquered the Mississippi River, which was a far greater problem than the Seine.

Accordingly, American designers are being consulted and a drainage canal is to be constructed. No less than 150 American firms established offices in Paris last year and nearly all have representatives of one or more men who wore the uniform of the United States in the World War.

ADMINISTRATOR'S NOTICE

All persons having claims against the estate of H. P. Taylor, deceased, are hereby notified to present same to us, properly proven, on or before August 1st, 1920, or they will be forever barred.

All persons knowing themselves indebted to the estate of H. P. Taylor, deceased, will please call and settle at once.

This June 11th., 1920.

ADMINISTRATRIX'S SALE.

The undersigned administratrix will on Saturday, June 19, 1920, at the residence of Ida Kelley, in Ohio County, Ky., sell at public outcry all of the personal property belonging to H. C. Crowe, deceased, which property consists of horses, mules, hogs, poultry, household and kitchen furniture. Said property will be sold to the highest and best bidder on a credit of six months.

Purchasers will be required to execute bonds with approved security, immediately after sale. Sums of less than \$5.00 will be sold for cash.

This June 7, 1920.

IDA KELLEY,

Administratrix of the estate of H. C. Crowe, deceased.

HIS NARROW ESCAPE.

(New York World.)

Pike was one of those negroes commonly known as "triflin." He was not pronouncedly bad, nor was he perceptibly good. About once a year he got religion and went to church two or three times, then backslid again for another twelve months. On one of these periodical visits to a place of worship, after the sermon the preacher rushed back to extend a welcome to Pike.

"Well, Pike, I'm glad to see you," he said. "Suppose you haven't stolen any chickens since I saw you last year?"

"No, sir, pa'son," Pike answered.

"Nor no turkeys?" continued the preacher.

"No sir."

"Nor no ducks?" the parson persisted.

"Then praise the Lord!" shouted the colored preacher. "I hopes you continues in the straight and narrow path."

Pike left the church feeling that he had been through the third degree. Once safely outside he wiped his face, sighed with a relieved air and remarked:

"Ef he'd said geese he'd a had me sure!"

"I am not surprised to hear she is an advanced spiritualist. She is a woman who always goes to extremes."

"Is she? I thought she went to mediums."—Baltimore American.

A Northern tourist got off the train in Arkansas to get a better view of a lean animal that was rubbing itself against a scrub oak. "What do you call that animal?" he asked a native.

"Razor-back hawg, suh."

"What's he rubbing himself against the tree for?"

"He's stroppin' 'hissself, suh, jes' stroppin' 'hissself."

FARM DEPARTMENT.

India's Export Duty May Affect U. S. Hide Market.

The imposition of a duty of 15 per cent upon all hides and skins exported from British India probably will be seriously felt in the markets of this country, according to the Bureau of Markets of the United States Department of Agriculture, since India is one of the principal sources of America's supply of goatskins, buffalo hides and calfskins, and also has sent this country quantities of cattle hides, the total for the fiscal year of 1919 being 2,096,807 pounds. In 1917 the total was several times that amount.

In 1919 the United States imported 89,004,528 pounds of goatskins. Of this amount 41,967,890 pounds, or 47 per cent, came from India. Out of a total importation of 9,514,989 pounds of buffalo hides, 58 per cent were imported from India. Fourteen per cent of our calfskins and 7 per cent of our sheepskins also came from the British colony.

Two things at least, distinguish a pig club of 37 boys and girls in Knox County, Ill. One is that in the past season the members raised \$9,115 worth of hogs. Another is that the club organization provides insurance, the Knox County Swine Breeders' Association agreeing to pay two-thirds of the amount of losses if the members would pay one-third. No losses occurred during the past year.

Radiators finished either with ordinary or enameled paint give off more heat than those finished with aluminum or copper bronze.

See that all joints in hot-air pipes are tight—holes at like check dampers. Keep the water container in the jacket filled.

Children should be taught that care of clothing means not only saving of time and labor but saving of money. Clothing, when taken off, should be folded or hung properly, not dropped on the floor. Make it easy for the children to take care of their garments by providing playtime clothing that gives freedom. It should be made of material that will not easily soil or tear. Handkerchiefs, caps, overshoes, and mittens should be marked so that they will not be easily lost. A convenient place for keeping the garments should be provided.

Hay Cured Before Baling Will Keep Indefinitely

Baled hay that has been thoroughly cured in the barn or stack before baling can be stored indefinitely without danger of heating, say specialists of the U. S. Department of Agriculture. It may be piled so that the bales fit very closely together. Hay baled from the window and cock, however, unless very well cured, is likely to heat more or less in storage. Sometimes the heating becomes so intense that the hay becomes severely damaged or even unmarketable.

Damage from heating may be greatly lessened and sometimes entirely obviated by storing the bales on edge, allowing an inch or two of air space between them. When the bales are piled flatwise the air is excluded and heating is likely to occur, whereas leaving an air space tends to prevent heating by inducing circulation, which cools the hay. The first layer of bales placed in a barn should be placed on edge, and the second and every alternate layer should be placed on edge and crosswise. This crosswise method or "cording" prevents any of the air spaces in the tier from being entirely covered and insures ventilation through the entire pile. The heat air works up around the edges of the bales and the cooler air enters from the sides and bottom.

When bales that have been laid flat on their sides begin to heat it becomes necessary to move the bales and pile them in the manner just described. If there are any indications of heating when the hay is put into the barn, or if the hay grower has any doubt about the hay keeping, it is best to pile the bales crosswise on edge, rather than take any risk, even though this method of storing wastes more or less storage space. Cases are on record in which hay growers, usually beginners, have baled hay from the window and cock, and because it spoiled in the snow, owing to improper storing, have become convinced that baling from the field was not a success, not realizing that the fault lay in the manner in which the hay was stored.

Farmers Should Build Silos.

Lexington, June 11, 1920—Owing to the fact that much of this year's corn crop will be planted late, farmers should figure on how to take care of this crop. If the fall is late the crop will mature all right; but if we should happen to have an early fall, the man who has a silo that can be filled can take care of his corn to the best advantage. As a means of building up the fertility of the soil

the feeding of livestock and dairying represent the best methods, and in order to successfully handle these lines of farming the silo becomes of great value. It is rather singular that the farm income from States having a large number of silos is higher than the farm income from Kentucky.

Injury to Grapes.

An insect commonly known as the flea beetle, is doing considerable damage to grapes this season. In some cases the damage is so extreme as to greatly reduce the crop. These insects eat the leaves and then the fruit. This can be controlled by spraying with arsenate of lead, using two pounds of the powder to fifty gallons of water. This material can be mixed in combination with Bordeaux mixture which serves as a means of controlling the rot and by giving the complete spray the insects and the rot can be controlled.

THE TERRIBLE DEINODON.

The skeleton of the deinodon has been unearthed in Alberta, Canada, and those paleontologists who can look at a few bones and tell us all about the animal assure us that we are lucky that this fellow is not still among us.

The deinodon is said to be the swiftest as well as the most powerful beast that ever roamed the earth. Compared to him the lion would be no more than a kitten beside a mastiff. He had a fearful capacity for running, tearing and eating. He was about 12 feet high and 20 feet in length. The scientists inspired by the horror of the thing nicknamed him "old terrible-tooth."

But there is small occasion to be alarmed at the present time, for we are informed that the last of these awful creatures expired 60,000,000 years ago. He had his chance to make good, to justify his existence, but was unable to do so. He was replaced by animals more in keeping with the cosmic needs. It has been suggested that present day profiteers should take warning.

Surgeons agree that in cases of cuts, burns, bruises and wounds the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the Ideal Antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Ohio County Drug Co.

WOMEN DISCARD STOCKINGS.

Fashion mongers of extreme proclivities are setting examples in dress that even the famous style arbiters of Paris are pronouncing as a "bit too much." At a London ball a few nights ago the wife of a well-known American millionaire appeared in a gorgeous costume, somewhat abbreviated, below which glistened a pair of shanks entirely bare.

Parading at public gatherings without hosiery is getting to be an old story in Paris. There the latest sensations in the form of "beauty windows"—square and diamond-shaped holes about two inches in diameter scattered along the low backs of gowns or just above the knees. One model blossomed forth at a horse show recently with a complete ring of "beauty windows" around the waist. Lacing is once more practiced in Paris and dress-makers are being swamped with orders for gowns with tight waists.

KENTUCKY CROP ESTIMATE.

With numerous reports of very short acreage, heavy abandonment, thin stand, and damage by Hessian fly, Kentucky's wheat crop now promises 5,825,000 bu. compared to a prospect early in May for 6,143,000 bushels, according to the June crop report, issued jointly today at Frankfort and Louisville by State Commissioner of Agriculture W. C. Hanna and H. F. Bryant, Kentucky field agent of the U. S. Bureau of Crop Estimates. Last year the final yield in Kentucky turned out 12,029,000 bushels while the 5-year average, 1914-18 inclusive, was 10,316,000 bushels. The greatest cut in acreage and the heaviest damage apparently occurred in Western and Southern Kentucky.

Oats are doing fine on a good acreage, except where too badly drowned out in a few places. The condition is 92 per cent of normal and the acreage about 413,000, indicating a production of about 10,706,000 bu., compared to 9,900,000 bushels last year.

Rye shows a condition of 83 per cent of normal, with about 53,000 acres in the State to be harvested for grain, this indicates a production of approximately 629,000 bushels, compared to 744,000 bushels last year.

Barley acreage in Kentucky this year is about 12 percent less than in 1919, due chiefly to increased barley tobacco acreage. Practically all the barley in Kentucky is grown in the Blue Grass counties. Condition of barley is 90 per cent of normal, indicating a production of about 95,000 bushels.

Most meadows have made good growth, though some sections are poor or very weedy, and some of the first cutting of alfalfa was damaged by rain. Condition of clover is 89 percent, with the acreage about 12 per cent less than in 1919, due chiefly to high prices of seed and to winter killing. Alfalfa condition is 90 per cent due chiefly to freezing out. The acreage is about 10 per cent less than in 1919.

Apple prospects are good in most sections, the average being about 71 percent of a crop. Peaches are about 78 per cent of a crop, while pears are about 63 per cent.

Pasture in most sections averages fair. All work and crops are very late. Much plowing, corn planting and tobacco setting still being done. Truck crops are growing well now, but melons were severely choked by cold, wet weather in May. Blackberries promise a bumper crop practically all over the State.

PEDDLING ZEPPELINS IN U. S.

Three Germans representing the Zeppelin Airship Co., have arrived in Washington for the purpose of negotiating with the war department for the sale of the Zeppelin patent rights or a few of the ships as models. Officials refused to state whether there was any intention to buy for the U. S. government, but conferences were arranged with the German agents. It is reported that certain civilian companies are prepared to buy a few of the big ships for a commercial air line in case the war department does not act.

FOUND "WANDERING TOOTH"

A Swiss dentist has reported the case of a patient who suffered considerably from toothache, headache and defective eyesight for 10 years although his teeth seemed perfectly healthy. In this time oculists and dentists did their best to relieve him and several teeth were extracted. Yet the distressing symptoms continued and abscesses were repeatedly formed at the base of healthy teeth. Finally an x-ray picture of the mouth was taken. This revealed a "wandering tooth" buried deep in the palate. This rootless tooth was found to be the source of the infection. It was removed and the patient now enjoys perfect health and normal sight, having discarded his glasses.

AIR RECORDS BROKEN.

Capt. L. H. Smith made a new world's record on a Canadian field for an airplane flight with a pilot and three passengers by making an altitude of 17,100 feet. A few days later C. H. Coombs, at Mineola, N. Y. raised this record to 17,150 feet.

CRUELTY OF STUDENTS

A student in the University of Louisiana, Alfonso Quinonez, a citizen of San Salvador, was burned to death as a result of initiating ceremonies of a fraternity. It was explained that it was the practice to rub a portion of the skin with ether, but in the case of Quinonez the fumes caught on fire and the can of ether was upset upon the victim. A girl student, Elsie Kanowitz, in the college of New York, clad in a bath robe, was imprisoned in a hall bedroom for 18 hours by girl members of the sophomore class. It was alleged

that the student had broken one of the girls' rules by conversing with members of the male sex at a forbidden time.

MOTOR VEHICLES

Of interest to the average car owner is the total number of motor driven vehicles in the United States and the comparative number of passenger cars and motor trucks. Out of approximately 7,000,000 motor vehicles 650,000 are used for commercial purposes—passenger cars outnumbering motor trucks by more than ten to one. About 375,000 trucks are equipped with pneumatic tires, showing the tremendous strides made by the pneumatic in the few years since its development. That 275,000 trucks are running on solid tires indicates that this and the cushion type will always have a certain field where powers are not necessary.

PUT LION OUT OF HOTEL

Hearing the roar of a lion on the second floor front, the manager of the Belleaire hotel, N. Y., started an investigation and found that among his guests was Jim, the pet lion of T. R. Zann. The lion was only hungry, and when fed he wagged his tail in quiet contentment. That, however, did not prevent his being immediately evicted. He had been brought in, while quiet, in a piano box, and he had counted upon waiting there until passports could be secured for Cape town, Africa, his destination.

GIVES HOME TO SOLDIERS.

Nathan Straus, millionaire philanthropist of New York, has announced plans to convert properties in New Jersey and in the Adirondacks into homes for soldiers. The properties are estimated to be worth more than \$1,000,000. The home, he stated, will be open for all races, colors and creeds. He also announced that he had adopted a young man who served with the American forces in France.

RAILS GAIN PROFIT

AFTER U. S. RELEASE

Washington, June 9—Net operating income of the railroads increased by nearly a million dollars during March—the first month after their return to private control—compared with March 1919, when the government controlled the lines, according to a partial summary issued tonight by the Interstate Commerce Commission.

For March, 1920, the net operating income of the roads was \$10,206,576, compared with \$9,396,592 for March 1919, and for the first three months of 1920 the total was \$34,427,105 as against \$34,186,086 for the corresponding months of 1919. Operating revenues for March were \$450,470,217, against \$368,096,046 for March 1919, and operating expenses amounted to \$417,343,385, compared with \$340,130,021 for that month last year.

Estimated items not included in the partial summary may increase the net operating income in the final summary, the commission stated, if the completed responses of the carriers warrant their inclusion.

SPAIN IS HOUSE HUNGRY.

In Spain as well as in other countries we hear the cry for more houses. Land both for produce and building purposes has risen fabulously in price and a good many families are forced to live in tents and even in caves. The latter abodes are most common in the vicinity of Granada where the Moors dwelt centuries ago. Some of these caves have been fitted up with electric lights and other modern conveniences so that they are quite comfortable. A fund of \$1,500,000 has been raised by King Alfonso to build houses in Seville for working people.

KING ALFONSO FINED

While walking through a park in Madrid King Alfonso took a short cut across the grass from one path to another. A guardian at once stopped him and informed him that walking on the grass was forbidden and that he would have to pay a fine. The king was at first abashed and then laughingly paid the money. All the members of his suite who followed him across the grassward were also fined.

ABANDONED BAGGAGE.

On Governor's Island, N. Y., there are 148,000 barrack-bags, 6,000 trunks and boxes and thousands of pieces of unclaimed baggage belonging to soldiers, sailors and marines returned from France. Knights of Columbus and army authorities are trying to locate the owners and have already sent out more than 75,000 pieces.

A TUMBLING ICEBERG.

The steamship Munaires recently arrived at New York from Rotterdam, reported that a fleet of 14 icebergs, some fully 100 feet in height, had been encountered near where the Titanic was sunk in 1912. On of the great bergs, evidently thawed below water, tumbled over while passengers watched. This caused the breaking off of a large section and a swing in the opposite direction, soon followed by another dizzy movement for the same reason. It is because of the liability to take a sudden somersault that mariners fear to approach a berg.

WIFE SEES LOVER SLAIN BY HUSBAND

Outraged, Shoots Man To
Death In Room With
Spouse.

Henderson, Ky., June 16.—George Maddox, 36, shot and killed a "Dock" Stanley with a double-barreled shotgun at Sebree, Ky., early this morning, after the latter had been found in a compromising position with Maddox's wife.

Maddox, an employe of the Standard Brick Company, of Evansville, and his wife have been separated for several weeks. Stanley, who is 30 years old, married, and has one child, also had marital difficulties and was separated from his wife.

Yesterday Maddox went to the home of his wife's father, A. J. Brown, in an endeavor to effect a reconciliation. He was told she was not at home, and that no one there knew her whereabouts. Upon inquiry it developed that she was at Stanley's home at Sebree.

Maddox, according to his own story, procured a shotgun and started for Stanley's home. On arriving there he walked about the house until he came to a window through which he could see Stanley and his wife. He tapped at the window to attract attention, and Stanley jumped up and started for a shotgun at the opposite side of the room. As he rose Maddox fired, the charge taking effect in Stanley's right side. The latter continued to reach for his weapon and Maddox fired the remaining barrel, the shot blowing off half of Stanley's head. The woman, clad in night clothes, ran screaming from the house.

Maddox surrendered to Marshal Turpin at Sebree and started for jail at Dixon. His examining trial will be held Saturday.

DECLARES UPRIISING PLANNED IN INDIA

London, June 13.—Alarming confidential reports of an intended uprising in India in the autumn are reaching the Government, according to the Star today, which says that Bolshevik literature is known to be behind the movement.

The India office, when questioned with regard to the Star reports declared that it had received no such information.

The Star, however, makes the flat assertion and displays the news sensation.

"It is considered by the authorities at home," the Star says, "to be more than probable that organization in

Turkestan of a Red force to attack Persia and Afghanistan is but part of a big plot by which it is hoped to end our power in India. The opinion is expressed that should the whole Bolshevik plot mature our present forces in India would be insufficient to cope with the rising."

FRENCH LIKE OUR CANNING METHODS

Last year France borrowed three canning specialists from the United States Department of Agriculture. This unit taught a large number of agricultural directors and professors, assembled for the purpose at the principal French agricultural college, the American methods of canning and drying. This year the Americans have been asked to continue the demonstrations and lectures. One of the unit is already there and the rest sail the last of May.

Instead of giving the instruction at one place in France this summer, short courses will be conducted in different parts of the country at the schools where those who attended the course last year have been teaching American canning methods. To facilitate the work, the French Government recently issued a bulletin which gives complete directions for canning by the American method. The material for this bulletin, which is the first of its kind to be published in French, was prepared by Frantz P. Lund, a member of the American canning unit.

DEMOCRATS TO MAKE ATTACK ON WILSON

Effort To Oust President
From Party Councils
To Be Made

French Lick, Ind., June 16.—The opening of the Democratic National Convention at San Francisco will witness an anti-Wilson attack with the object of eliminating the President from party councils, according to indications given at the Democratic conference which is under way here.

W. G. McAdoo will be the center of the attack, since the anti-Wilsonites are determined to defeat the presidential aspirations of President Wilson's son-in-law and nominate a candidate who is opposed to the administration.

Gov. James M. Cox, of Ohio, at present is the strongest of these entrants, while Governor Smith, of New York, and Herbert Hoover are mentioned as possibilities.

There also will be an attack on William J. Bryan, thru a "personal liberty" plank which probably will find expression in party commitment to states' rights in prohibition enforcement and some abrogation of the Volstead enforcement act to permit consumption of light wines and beer.

The conference here has developed that there is strong concealed opposition to any plan for an open declaration on the League of Nations, and a move will be made to declare against President Wilson's league and underwrite the league, with reservations, if the first plan is defeated.

DEMPSEY NOT GUILTY

Champion Freed By Jury Of Draft
Evasion Charge.

San Francisco, June 15.—William Harrison (Jack) Dempsey, world's heavyweight champion, was found not guilty on a selective draft evasion indictment by a jury in the United States District Court here today.

Both sides waived final argument in the trial today and immediately thereafter Judge M. T. Dooling began instructing the jury. The defense, contrary to its announcement, failed to put on two concluding witnesses.

The jury was out ten minutes and took one ballot.

Judge M. T. Dooling's instructions to the jury occupied twenty minutes. In them he outlined the three counts in the indictment against the champion, which were:

Direct evasion of the selective draft.

False statements in Dempsey's questionnaire as to his dependents.

False statements to the district draft board here.

The courtroom was thronged with spectators and many could not obtain admission.

Following the verdict Dempsey, his parents and his attorneys were stormed by friends wishing to offer congratulations.

Dempsey said later: "I am mighty glad it is over. I am glad not only for the acquittal but also for the fact that the trial gave me an absolutely clean sheet."

A joint indictment charging conspiracy to evade the selective draft remains against Dempsey and his manager, Jack Kearns. They were ordered to plead to this indictment tomorrow. Their counsel said they would ask that this indictment be dismissed.

Mrs. Priscilla Dempsey, mother of the champion, who sat by his side throughout the trial, squeezed his big hand in both of hers when the verdict was returned. Later she said she had never feared for the outcome.

OAK GROVE.

Farmers are almost done planting corn. The tobacco crop is very short in this community.

Anyone wanting screen frames painted would do well to call on Ransie Martin, Cromwell.

Mr. Stanley Gilstrap and wife, of McHenry, visited Mrs. Gilstrap's parents, Mr. and Mrs. John Miller, the first of the week.

Mr. and Mrs. Earl Smith and Mr. and Mrs. Lee Ranney, of Simmons, visited their parents, Winson Smith and family Saturday night and Sunday.

Dr. Willard Lake, wife, and little son, of Simmons, met Mr. Guy Ranney, of Select, Sunday at Borah's Ferry, and they had a very pleasant time fishing. The Dr. fished all day with the same bait. Guy said he fished all the way from Bowling Green to Rochester and did not get a single bite.
